## EXPLANATION OF THE CALENDAR PAGES.

## Column.

## Left Hand Page.

- 1 & 2—Contain the days of the month and of the week.  
 3 & 4—The rising and setting in *mean time* of the highest point, or of the *upper limb* of the Sun, corrected for refraction.  
 5—Days' length in hours and minutes.  
 6—Equation of Time (or quantity by which the Sun is *slow* or *fast* of the clock at noon, apparent, not mean, time at Greenwich, or at a quarter before 8 o'clock in the morning at Halifax.  
 7—The Sun's declination for the same as the Equation, 6th col.  
 8—The rising or setting of the Moon—the setting being given from the New to the Full Moon, and the rising from Full to New Moon.  
 9—The place of the Moon in the Ecliptic,  
 10—The time of the Moon's southing or passing the meridian. This column also gives the time of High Water at Parrsboro', Horton, Cornwallis, Windsor, Newport, Truro, &c.

The top of the columns of each month gives the Moon's phases, or times of New and Full Moon, and of the first and last quarters, or two quadratures with the Sun.

THE FARMER'S CALENDAR is placed at the foot of the columns of each month.

## Right Hand Page.

- 1—Contains the days of the month.  
 2—Sundays, Weather, Anniversaries, &c.  
 3—The time of High Water at Halifax, N. S.  
 4—“ “ “ at Pictou, N. S. and Cape Tormentine, N. B.  
 5—“ “ “ at Annapolis, N. S., St. John, N. B., and Portland, Maine.  
 6—“ “ “ at St. John's, Newfoundland.  
 of that tide which immediately precedes the southing of the Moon. These four columns are computed on the supposition that the time of High Water on the days of New and Full Moon (*L'establissement du port*) is at Halifax, 7h. 30m.—at Annapolis, St. John, N. B., and Portland, 11h. 14m.—at Pictou and Cape Tormentine, 10h.—and St. John's, Newfoundland, 6h. 30m.

All the calculations are made to *mean solar time*, which has superseded the old mode of reckoning by *apparent time*.

THE PLANETS.—The hour of *meridian, passage, right ascension, and declination* of each of the principal planets, is given for the 1st and 15th of each month—to which is added the *mean time transit*  $\varphi$ , or the mean time of transit of the first point of *a* Arietis, being the mean time corresponding to 0h. 0m. 0s. of *Sideral time* on each of those days. By the aid of this table the time of the meridian passage of any heavenly body may be readily found. From the right ascension of the body subtract the *retardation*, which is at the rate of 9 83s. for each hour, or 0 16s for each minute of its R. A.; add the remainder to the mean time transit  $\varphi$ ; the sum, divide if necessary, by 24h., will be the mean time of the meridian passage of the body in question. For any other day than the 1st and 15th of the month, apply a correction at the rate of 3m. 55.91s. per day, reckoned from the nearest given day, to be added if for an earlier day, subtracted if for a later day.

- Full Moon, 3d d. 4h. 2m. morning, bearing S. S. West.
- ⊖ Last Quarter, 11th d. 7h. 59m. morning, below the horizon.
- New Moon, 18th d. 4h. 23m. morning, below the horizon.
- ⊕ First Quarter, 24th d. 9h. 24m., afternoon, bearing S. S. West.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

The attention of our readers has been repeatedly called to the importance of mental improvement. All will readily acknowledge, that it should be the constant care of the farmer to improve the soil, but the improvement of the mind,—the matter that should receive the first attention,—is delayed or entirely neglected. "These ought ye to have done, and not to leave the other undone." Farmers *should be improved* as well as farms, and their improvement should be attended to first, and then the other will be more easily accomplished. In the agricultural community there seems to be a lack of faith as to the good effects of reading and study—they do not see the necessity of it—and, contented with their limited information, there is nothing to stimulate them to make efforts to obtain more knowledge. Give a portion of each day to reading and study—think not because you are a farmer, literary acquirements are useless. They are as necessary to the full attainment of a knowledge of agriculture, as of any other science.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

With energy for prompt and vigorous action, and capacity for sober thought and sound reflection, a man may enter upon business with some assurance of success. His home will exhibit the best picture of his true character. What he undertakes is well done. His fences are in order—there is an air of neatness and thrift about his dwelling and out-buildings; his grounds are laid out with reference to beauty as well as convenience—ornament and use have been consulted in planting out his fruit and shade trees. He does not waste the long winter evenings in idleness, nor do his family neglect this season of improvement. They lay up in winter, from reading, conversation and reflection, a harvest of more value than the bounties of autumn. The mind thus stored, casts light upon any vocatio. It cheers the housewife in her round of duties, and lightens the labor of the field.

The farmer gathers his family about a cheerful looking fire, and enjoys the fruits of his labors. Are there any neighbors who are cold or hungry; any families where happiness is not a guest? Remember them in the midst of your plenty.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

Oxen and Horses, which have worked hard during the winter, will be much benefited by being allowed a respite during this month of storm and mud; and while the farmer and his boys are engaged in cutting and splitting the year's stock of wood, which has been (of course) got in by good sledding, he will find it much to his advantage to let his oxen quietly chew the cud of "sweet and bitter fancy" in the comfortable barn, or sunny barn-yard. This interval of rest will enable the animals to recover some of their flesh and strength, which have been exhausted in hauling wood and poles; their old hair becomes loose and falls off, the pores of the skin are opened, and the animals, reinvigorated, are fitted to withstand the heat and burden of the spring's labor.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

During the latter part of winter and the beginning of spring, stock requires more attention than at any other season. Under the fluctuations from heat to cold, and from fair to foul, the appetite of the animal is very irregular. Cattle, sheep, and swine are now bringing forth their young, and unless they are properly sheltered, provided with suitable food, and carefully watched and attended, they will certainly fall into bad condition. The best hay should have been reserved for feeding the cows and ewes, at this period, and they should be fed, besides, with a little grain in some form, and some carrots, potatoes, turnips, or other vegetables.

Sheep may be turned to pasture almost as soon as the snow is gone. If there is grass of the previous year's growth, the sheep will derive more benefit from eating it, provided the ground is not too wet, and the pasture for the present season will be rather improved by its being cleared off. It is not expedient to turn cattle and horses to grass as early as sheep may generally be turned out, chiefly for the reason that the larger animals are liable to do injury by poaching the soil, and breaking and destroying the sward. On this account, it is proper to keep them in winter quarters till the ground is well settled and the grass is well started. Milch cows are generally brought to the barn for some time after they are first turned out, and they should be closely watched, lest they become weakened by the sudden change to green food. The best of hay, and what salt they will voluntarily eat, should be allowed them while in their stalls or yards. It is best to feed working oxen at the barn till the spring work is performed.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

The first and great requisite in the successful treatment of newly transplanted trees, is to keep the surface of the soil, for many feet around them, clean and mellow by cultivation. This is important to all kinds of trees. If trees have been dug up carefully and with uninjured roots, and then well transplanted, in the first place; and the soil kept mellow, as already stated, in the second; they will usually have made so good a growth by midsummer, as to be beyond the danger of drought. A great mistake is often made by watering the roots of newly set trees, before the leaves expand, by which they become water-soaked and killed. A leafless tree is in a nearly dormant state, and throws off but little moisture. But as soon as the leaves expand, they exhale moisture rapidly, and a supply is then needed at the roots. Watering a feebly growing tree, is at best but a very irregular way of supplying it with moisture. A greatly superior protection from midsummer heat and dryness is *mulching*, or covering the surface of the earth for some feet round each tree with hay, straw, or other litter, several inches in thickness.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

Stacking out hay and fodder, causes waste enough in a few years to pay for building good barns, sheds, and shelters for hay and animals. Sheds, high and dry, closed at the north, east, and west, and open at the south, are best for sheep. This gives them sufficient air, and is better for their health than close stables. The worst storms for sheep are the cold rains with easterly winds; and if they are not sheltered, they are drenched through, and when the weather changes to cold, the wool freezes on them; and if they are in low flesh, death is often the consequence. The advantages of sheltering animals by stables and sheds, are better understood now than formerly; although the old practice still lingers on some farms, where the shivering and bellowing animals speak for themselves as to its effects. If the ghosts of animals which have died for the want of shelter, could haunt the imaginations of these careless farmers, it might perhaps cause a change in their management.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

Grain harvesting is an important business of the farmer, and when the season for performing it arrives, every other business should give place to it. Farmers generally let their grain stand too long before cutting. When left to get ripe, a great deal shells out and wastes in the harvesting; but if cut when the straw is green, this waste is saved, and the flour is of better quality, and the grain is heavier, as has been proved by experiment. In good weather, wheat and rye may be taken up in one day from the cradle or sickle, bound in convenient bundles, and set up in shocks of 4, 10, or 12 bundles each. With rye, a shock of bundles set up with the butts well braced, and no cap sheaf set on, is found to cure better, and in case of a long storm, is less liable to sprout than when shocked in the old way with a cap shenf. Grain shocks will generally cure in from 8 to 10 days of ordinary hay weather; and as soon as cured, let them be secured.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

There is a great advantage in commencing the fattening of animals early in the fall. Articles which are of the most perishable nature should be used first. Squashes and pumpkins, when well ripened, constitute a nourishing food for cattle or swine—for the latter it is best to cook them. They should be boiled in as little water as will answer, and when soft, they should be mashed fine, and about one-fourth of their bulk of meal intimately mixed in. This kind of food, with a little skimmed milk or whey, will fatten swine very fast; and for two months, or from the middle of September to the middle of October, we scarcely know a better article for feeding stock. The above remarks on feeding with cooked food, refer to swine; for fattening cattle, it is not certain that the use of cooked food would be attended with results sufficiently advantageous to defray the extra expense.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

Punctuality in engagements is as necessary to a farmer as to a merchant. Every husbandman should carefully read and digest matter connected with his business. Wheat, rye, oats and barley, should never follow each other in a course of rotation; there should be an intervening hoe crop between them. Weeds should never be permitted to mature their seeds on a farm, but be pulled up or cut down as often as they show themselves, such being only the true way of eradicating them. To insure this result the ground should be planted in corn, and that kept clean. Thorough preparation of land is necessary to the successful and luxuriant growth of crops. Abundant crops cannot be grown for a succession of years, unless care be taken to provide an equivalent for the substances carried off the land in the products grown.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

Cold weather is coming in good earnest. Sheep huddle together in some corner; cattle seek protection from the wind by standing close to the side of the barn; poultry are standing on one leg under the shelter of some equally defenceless cart; pigs gather about the kitchen door in sullen silence. "I am too poor to provide conveniences for my stock," exclaims the sluggish farmer, "they must wait another year." So year after year the poverty-stricken and procrastinating farmer drags on, lamenting the fortune which his own negligence renders inevitable, making his family equally miserable with himself, by denying them the means of improvement—too ignorant and too poor to grow wiser or richer, and this unfortunate man will to his dying day, consider himself the victim of untoward circumstances, the son of misfortune, and the sport of destiny, instead of seeking in his own improvidence the cause of his bad luck.

The column of the Moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Windsor, Newport, Truro, &c.

Agriculture is the necessary calling of perhaps four-fifths of the population of every age and country. Food is the first want of man, the first object of wise and laborious pursuit. Except in positions peculiarly favorable to commerce and manufactures, and the ready importation of bread, no community will embark largely in either of these pursuits, while a fertile soil and genial climate invite to agricultural pursuits. An agricultural population is the main source, whence principally the *mechanic arts*, the pursuits of *commerce* and *merchandise*, and the *learned professions*, draw fresh recruits to fill up the wasting ranks of each.—A striking comment, alike on the sanitary influences of the one, and the destructive tendencies of the other.

*Rugged Island Harbor Light*—On the Gull Rock, at the entrance of the harbor. Building square, and painted white, exhibiting a clear fixed light at an elevation of 51 feet above the sea level, and is situated in lat. 43, 36 N., and long. 65, 66 West.

*Pubnico Harbor Light*—A Beacon light on the S. E. side of the entrance to Pubnico harbor, situated on the east side of the entrance to the Bay of Fundy, about 13 miles northerly of Cape Sable. Building square, painted white. A fixed red light on the seaward side, 28 feet above high-water level, (rise and fall 12 feet,) and stands 50 fathoms from low-water mark.

*St. Paul's Island*—A fixed Light on the north-east end; and a Flash Light on the south-west end.

*Scattarie Island*—A Revolving Light on the east end of the Island.

*Gannet Rock Light*—This Light is intended to warn vessels of their approach to a very dangerous range of shoals and ledges, which extend from the Old Proprieter to the Seal Islands off Machias, a distance of about 20 miles. A WHITE Flash Light, 20 seconds dark, and 40 seconds light in each minute. Building painted in stripes, vertical, black and white.

*Machias Seal Island Lights*—Two Fixed White Lights upon the Machias Seal Islands, 45 feet above high-water, and bearing from each other E. S. E. and W. N. W. distant about 200 feet, by which circumstance of two Light Houses at the same station, they will be immediately distinguished from all other lights upon the coast, British or American. Both buildings painted white.

*Head Harbor Light*—Next in order after passing Grand Manan, and the plain White Light (American) on West Quoddy Point, is Head Harbor Light, placed on the N. E. extremity of Campo Bello, and is a guide to vessels entering the main channel to West Isles, Moose Island, and the Inner Bay of Passamaquoddy; it enables vessels also, at all times, to enter Head Harbor. A fixed white Light. Building painted white, with a red cross on it.

*Point Le Preau Lights*—Upon this projecting head land Two Lights are placed, one above the other in the same house, and distant 28 feet. Both lights can be seen from every point of the compass where they may be useful—both are Fixed and White. Building painted red and white, in stripes, 5 feet broad each, horizontally.

*Partridge Island Light*—At the entrance of the river and harbor of

St. John, N. B. A fixed white light; the building painted *red* and *white* in vertical stripes.

*Beacon Light*—Within Partridge Island, and upon a spit or bar which extends about half a mile S. S. E. off Sand Point, and which dries at two-thirds ebb, stands the Beacon Tower. A fixed white light; building painted *white* and *red* in horizontal stripes.

*Quaco Light*—A Revolving White Light, placed on a small rock off Quaco Head, showing twice full and twice dark in a minute. The light can be seen from any quarter where a vessel can approach. Building painted *white* and *red* in horizontal stripes.

*Cape Enrage Light*—On the Point of that name in Westmoreland, nearly opposite Apple River Harbor, N. S. Building painted *white*, about 120 feet above the tide. A plain white light.

### THE BOSTON REMEDY.

Redding's Russia Salve is an old established remedy. For the last thirty years this excellent Salve has been sold in the city of Boston and vicinity, and its merits have secured to it a steady and increasing demand. For Cuts, Burns, Wounds, Sores of every kind, Chilblains, Piles, Chapped Hands, Felons, Ringworms, Warts, Styes, and old stubborn sores, &c., it is a complete cure and a positive relief. The proprietors have many excellent letters from parties who have experienced benefits from its use, but to none do they refer with more pleasure than the following unsolicited

LETTER FROM C. SHEPARD, FORMERLY MEMBER OF THE MASSACHUSETTS SENATE:

MESSRS. REDDING & CO., 8 State street, Boston.

GENTLEMEN,—Through a friend of yours, I am informed that, by various uses and recommendations, I have much increased the sale of your Russia Salve. I will frankly confess that until a few months since I was exceedingly prejudiced against the article, and believed it all a *Humbug*. Being at a distance from home, and suffering much pain from a breeding sore, I felt obliged to resort to the nearest shop at hand and get a sanitary of some kind. The Salve presented itself first, and I ointed the inflamed portions freely with it, and the effect was truly wonderful. I have since used it freely in my family for sores, cuts, burns, &c., and have recommended it in various places and to numerous individuals, and ever it has given great satisfaction. I now consider it invaluable as a sanitary—every family will do well to keep it on hand—every mechanic should keep it at hand for bruises, cuts, sores, &c. Our mariners, I am confident, would find it a valuable agent to them when removed far away from other healing medicines—all should try it as a substitute for the old fashioned poultices, and from my experience it will reduce inflammation in half the time, and with vastly less trouble, than the poultice can do as usually made and applied.

C. SHEPARD.

In no instance will the application of the Russia Salve interfere with the remedies administered by regular physicians, but will aid all such as are proper to be administered.

Price, 25 cents a box; medium size boxes, 50 cents; very large boxes, for family use, one dollar.

**MOORE'S ENCYCLOPÆDIA OF MUSIC.**

COMPILED BY JOHN W. MOORE,

With the assistance of other distinguished men in the musical world. The intention of the author has been to make a most complete and thorough work of the above, which will be a desideratum in the world of music. It is published in one elegant Royal Octavo volume of about 1000 pages, double columns, and contains a

COMPLETE DICTIONARY OF MUSICAL TERMS,

**A History of the Science of Music, from the earliest time to the Present.**

A Treatise on Harmony and Thorough Bass, a description of all known Musical Instruments, with the names of the most distinguished makers, and a complete Musical Biography of over three thousand of the most distinguished composers and musicians who have ever lived. Mr. Moore has spent several years in compiling this valuable work.

P. S. The above splendid work, which will prove invaluable to every professional musician, and to every amateur, is now ready. It has been delayed on account of the immense labor bestowed upon it, and the difficulty of stereotyping a work so full of examples. The delay, however, will enhance the value of the work.

The price, bound in cloth, will be \$4.00,—half calf, \$4.50.

*Read the following certificate from one of the first men in the State of Maine:—*

AUBURN, ME., June 9, 1854.

MESSRS. D. TAYLOR, Jr., & Co.—Dear Sirs,—I received your letter this evening, for the first time. I have a good many calls for those Pills you gave me when in Boston. You had better send them by express to Lewiston Falls, Me. I now enclose \$3, and shall be in your city in a few weeks and state my case to you in full. You cannot recommend those Pills too highly. I prize them much, and in fact think them to be the best blood purifying medicine that there is in Maine, or ever has been brought before the public. I received benefit from them just as you said I would. You told me a good story about them, which I doubted some when I first bought them, but at the same time thought there might be some virtue in them. I was taken down in December last; my appetite failed me, and I run down as fast as I have come up. I am now able to do a pretty good day's work. Hoping that others may be benefited as I have been,

I remain yours, &c.,

A. W. ALLEN.

NASH'S SUPERIOR HORSE AND OX LINIMENT.—One of the most valuable articles ever offered to the public for Sprains, Windgalls, Ringbones, Spavins, Stiffness of the Joints, Fresh Wounds, Galls, &c.

This truly valuable Liniment has been extensively used for upwards of seven years, and in no instance has it ever failed to give satisfaction. The proprietor cheerfully recommends the above remedy to the public, under the full conviction of its efficacy in the above mentioned diseases, where an external application is required.

It reduces inflammation or swelling, or where the flesh has become callous it softens and reduces it, and produces a full and free circulation to the parts previously affected.

Numerous certificates from highly respectable individuals might be offered, " testifying to its efficacy " but the proprietor deems it unnecessary. All that is solicited is a fair trial of this Liniment, to convince the public of its value.

## THE FARMER'S GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE.

ALIAS THE NEW AND ONLY CORRECT EDITION OF

**"STEPHENS'S BOOK OF THE FARM,"**

BY HENRY STEPHENS, F.R.S., OF EDINBURGH.

*With an American Appendix, by J. P. NORTON, Professor of Scientific Agriculture, in Yale College, New Haven.*

"This work embraces every subject of importance connected with Agriculture in all its various branches, both theoretical and practical. Its clear and copious details, the fullness and accuracy of its information, the completeness of every illustration, have, in an agricultural work on practice, never been equaled." It is arranged under four separate heads, represented by the four seasons of the year—Winter, Spring, Summer, and Autumn—and the notes of Professor NORTON are appended in the same order, adding greatly to the value of the work by adapting it to the soil, climate, growth, &c., of this country. The united labors of two such distinguished writers constitute this the most complete and valuable agricultural work ever issued from the press. It comprises two large royal 8vo. volumes, and contains 1600 pages, besides 14 splendid steel engravings, and about 600 engravings on wood. The latter illustrate almost every implement of husbandry now in use: the various methods of plowing, planting, &c., &c.; and the former the domestic animals, the farm-steading, &c. The work is elegantly printed on thick white paper, from the English stereotype plates, and neatly bound in emblematic gilt muslin; price \$6; in leather, \$6.50; in paper covers, \$5.

Designed to encourage a spirit of hope, manliness, self-reliance, and activity among the people; to point out the means of profitable economy; and to discuss and illustrate the leading ideas of the day; to record all signs of progress; and to advocate political and industrial rights for all classes.

Its columns contain Original Essays—Historical, Biographical, and Descriptive. Sketches of Travel and Adventure, Poetry, Painting, Music, Sculpture, etc.; articles on Science, Agriculture, Horticulture, Physiology, Education, The Markets, General News, and every topic which is of importance or interest, all combining to render it one of the Best Family Newspapers in the world. Published weekly, at two dollars a year in advance.

**THE WATER-CURE JOURNAL, and Herald of Reforms.** Devoted to Hydropathy, its Philosophy and Practice; to Physiology and Anatomy, with illustrative engravings; to Dietetics, Exercise, Clothing, Occupations, Amusements, and those Laws which govern Life and Health. Published Monthly, in convenient form for binding, at one dollar a year in advance.

The Water-Cure Journal holds a high rank in the science of health; always ready, straightforward, and plain-spoken, it unfolds the laws of our physical nature, without any pretensions to the technicalities of science, but in a form as attractive and refreshing as the sparkling element of which it treats. We know of no American periodical which presents a greater abundance of valuable information on all subjects relating to human progress and welfare.—*New York Tribune*.

This is, unquestionably, the most popular Health Journal in the world.—*Even'g Post*.

**THE AMERICAN PHRENOLOGICAL JOURNAL.** A Repository of Science, Literature, and General Intelligence; devoted to Phrenology, Education, Magnetism, Psychology, Mechanism, Architecture, and to all those Progressive Measures which are calculated to Reform, Elevate, and Improve Mankind. Illustrated with numerous portraits and other engravings. A beautiful Quarto, suitable for binding. Published monthly at one dollar a year in advance.

It may be termed the standard authority in all matters pertaining to Phrenology, while the beautiful typography of the Journal and the superior character of the numerous illustrations are not exceeded in any work with which we are acquainted.—*American Courier*.

A Journal containing such a mass of interesting matter, devoted to the highest happiness and interests of man, written in the clear and lively style of its practiced editors, and afforded at the "ridiculously low price" of one dollar a year, must succeed in running up its present large circulation to a much higher figure.—*New York Tribune*.

**MECHANICS,  
MANUFACTURERS AND INVENTORS.**

A NEW VOLUME OF THE

**Scientific American**

Is commenced about the 20th September, each year, and is the **BEST PAPER** for Mechanics and Inventors published in the world.

Each Volume contains 416 pages of most valuable reading matter, and is illustrated with over

**500 Mechanical Engravings  
of New Inventions.**

The SCIENTIFIC AMERICAN is a WEEKLY JOURNAL of the  
**ARTS, SCIENCES, AND MECHANICS,**  
having for its object the advancement of the

INTERESTS OF MECHANICS, MANUFACTURERS AND INVENTORS.

Each Number is illustrated with from five to ten

**ORIGINAL ENGRAVINGS**

of NEW MECHANICAL INVENTIONS, nearly all of the best inventions which are patented at Washington, being illustrated in the Scientific American. It also contains a weekly list of American Patents; notices of the progress of all MECHANICAL and SCIENTIFIC IMPROVEMENTS; practical directions on the Construction, Management, and Use of all kinds of Machinery, Tools, &c., &c.

It is printed with new type on beautiful paper, and being adapted to binding, the subscriber is possessed, at the end of the year, of a Large Volume of 416 pages, illustrated with upwards of 500 Mechanical Engravings.

The Scientific American is the Repertory of Patent Inventions: a volume, each complete in itself, forms an Encyclopedia of the useful and entertaining. The Patent Claims alone are worth ten times the subscription price to every inventor.

**IMPORTANT TO INVENTORS.**

The undersigned having for several years been extensively engaged in procuring Letters Patent for new mechanical and chemical inventions, offer their services to inventors upon the most reasonable terms. All business entrusted to their charge is strictly confidential. Private consultations are held with inventors at their office from 9 A. M., until 4 P. M. Inventors, however, need not incur the expense of attending in person, as the preliminaries can all be arranged by letter. Models can be sent with safety by express, or any other convenient medium. They should not be over one foot square in size, if possible.

Having Agents located in the chief cities of Europe, our facilities for obtaining Foreign Patents are unequalled. This branch of our business receives the especial attention of one of the members of the firm, who is prepared to advise with inventors and manufacturers at all times, relating to Foreign Patents.

**THE GREAT  
BRITISH QUARTERLIES,  
AND  
BLACKWOOD'S MAGAZINE!**

**LEONARD SCOTT & CO., NEW YORK,**

Continue to Re-publish the following Periodicals, viz.

- I. The London Quarterly Review (Conservative.)
- II. The Edinburgh Review (Whig.)
- III. The North British Review (Free Church.)
- IV. The Westminster Review (Liberal.)
- V. Blackwood's Edinburgh Magazine (Tory.)

The present critical state of European affairs renders these publications unusually interesting. They occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

Arrangements are now made for the receipt of early sheets from the British Publishers, by which we are able to place *all* our Re-prints in the hands of subscribers, about as soon as they can be furnished with the foreign copies. Although this involves a very large outlay on our part, we continue to furnish the Periodicals at the same low rates as heretofore, viz:—

|                                                   |        |

| For any of the four Reviews, per annum, . . . . . | \$3.00 |
| For any two of the four Reviews, . . . . .        | 5.00   |
| For any three of the four Reviews, . . . . .      | 7.00   |
| For all four of the Reviews, . . . . .            | 8.00   |

**PHILLIPS, SAMPSON & CO.,****MILLER, ORTON & MULLIGAN, (late Derby & Miller),****ALDEN, BEARDSLEY & CO.,****LINDSEY & BLAKISTON,****And PECK & BLISS,****CONSTANTLY ON HAND AND FOR SALE AT THEIR LOWEST PRICES.**

Our assortment of **AGENTS' Books** is the largest in the United States, embracing the most popular Books in History, Biography, Poetry, Religion, Temperance, Narratives, Travels, Adventures, Agriculture, Popular Miscellany, Books for the Young, &c. They are all of a good and moral character, and are disposed of throughout the country mainly by Agents, Colporteurs and Ministers. They are well printed, on good paper and fair type, and bound generally in neat muslin, gilt backs, and most of them beautifully illustrated with engravings.

We have a great many Agents actively at work, who clear for themselves from \$5 to \$8 dollars per day. Those most successful, take sample copies of the books, and when they ascertain how many are wanted, order the Books direct from us, and deliver them at the time agreed upon. Still, some Agents prefer to order quantities at the start, and sell them from house to house, as they go. There is hardly a family that cannot be induced to buy one or more of the kinds, and we have been informed of instances where a single family has **Subscribed for the whole list of Books,** yielding the agent a very handsome profit.

There is no employment more pleasant or profitable than that of selling Books in the way proposed.

**IMPORTANT PROCLAMATION!**  
**A GREAT MYSTERY EXPLAINED.**

In the year of our Lord, 1847, in our capacities of analytical chemists, we discovered that by uniting certain vegetable agents, which had never before been used in medicine, we obtained properties possessing such a marvelous quick power over PAIN, that, the moment it was applied to the parts affected with pain, all uneasiness ceased. The most torturing pains were relieved in an instant, and the most violent spasms, and irritations were soothed, and the system restored to perfect ease in a few minutes.

In 1849, we introduced this Remedy to the world under the name of

**RADWAY'S READY RELIEF.**

It has been used by hundreds of thousands throughout the United States, giving instant ease to all troubled with Pain or Sickness.

One application externally, or a few drops taken internally, will instantly free the sufferer from the most violent and terrible pains, and restore the weak, feeble, and prostrated frame to strength and vigor.

No person has ever used RADWAY'S READY RELIEF without deriving some special benefit in less than fifteen minutes after its use.

Let those who are now suffering any severe pains give it a trial, for in fifteen minutes they will enjoy ease and comfort.

**RADWAY'S READY RELIEF**

was the first and is the only Remedy ever discovered that will stop the most torturing pains in a few seconds, and free the system from Rheumatic, Neuralgic, Nervous, and Miasmatic Disorders in a few hours. It will cure and protect the system against sudden attacks of

**CHOLERA, DIARRHEA, BILIOUS CHOLIC, PNEUMONIA,  
DYSENTERY, CHOLERA MORBUS, FEVER AND AGUE, INFLUENZA.**

Bear in mind, it is a Powerful Disinfectant, ant-acid, diffusive stimulant nervine, anti-spasmodic, and counter irritant.

The R. R. Remedies are medical discoveries of the present century. They are prepared on an entire new and original theory, "to stop pain instantly;" and protect the human system against sickness or any sudden attacks. The doses required to be taken are small. A few drops of READY RELIEF exercises a powerful influence over diseased action.

It has cured Rheumatism in four hours, Neuralgia in one hour, Croup in ten minutes, Diarrhoea in fifteen minutes, Tooth-ache in one second, Spasm in five minutes, Sick Head ache in fifteen minutes, Chill Fever in fifteen minutes, Chilblains in five minutes, Sore Throat in four minutes, Influenza in one hour.

Spinal complaints, Stiff Joints, Cuts, Bruises, Wounds, Frost Bites, Cholera Morbus, Dysentery, Tic Doloreaux, and all other complaints where there are severe pains, Radway's Ready Relief will instantly stop the pain, and quickly cure the disease.

**R. R. R. DISCOVERY No. 2.  
RADWAY'S RENOVATING RESOLVENT**

Possesses the most quick and potent power over all Chronic, Scrofulus, Syphilitic, and Skin Diseases. In six hours after the first dose is taken, the patient will feel its health renovating efficacy.

**FOR ALL HUMORS.**

The most foul and corrupt humors will, in a few days, yield to the cleansing, purifying, and renovating influence of the R. R. RESOLVENT.

The most loathsome Sores, Ulcers, Nodes, Swellings, and the most

**Frightful Skin Diseases,**

Have been cured in a few days by RADWAY'S RENOVATING RESOLVENT. It is pleasant to take, and the patient feels no disagreeable sensation of sickness at stomach,

**CHRONIC DISEASES**

That have been lingering in the system, corrupting the blood, softening the bones, prostrating the muscles, for ten, twenty, or forty years, have been radically cured by RADWAY'S RENOVATING RESOLVENT.

**Great Lung Medicine for all Lung Complaints.**

Persons affected with weak or ulcerated Lungs, Tubercles, Bronchitis, Hacking, Dry Cough, Difficult Breathing or Spitting Blood.

RADWAY'S RENOVATING RESOLVENT will in a short time remove all obstructions from the lungs and throat, and impart strength and soundness to the weak and diseased lungs.

There is no medicine in present use that has made so many rapid cures of Lung Complaints as Radway's Renovating Resolvent. One day will alter the diseased condition of the lungs, and check the ravages of decay.

The public may rely upon an effectual cure of the following diseases by using the Renovating Resolvent:

Chronic Rheumatism, Scrofula, Glandular Swellings, Hacking Dry Cough, Cancerous Affections, Syphilitic Complaints, Bleeding of the Lungs, Tic Doloroux, White Swellings, Tumors, Ulcers, Skin Diseases, Hip Diseases, Female Complaints, Dyspepsia, Water Brash, Gout, Rickets, Salt Rheum, Bronchitis, Consumption, Liver Complaint.

#### FEEBLE MEN AND WOMEN,

Whose nuptial beds for years have been couches of disappointment and regret, will find Radway's Renovating Resolvent a true renovator and invigorator of the diseased and disabled parts. All unsoundness is removed in a few days, and every organ in the system restored to health, strength, and vigor.

#### NERVOUS PEOPLE

Should take Radway's Renovating Resolvent. It will make the most nervous, weak, gloomy, and dejected victims of nervousness, feel healthy, vigorous, and happy. Price of R. R. Resolvent, \$1 per bottle.

#### R. R. R. DISCOVERY No. 3.

#### RADWAY'S REGULATORS.

#### THE THIRD GREAT MEDICAL DISCOVERY OF RADWAY & Co.

One REGULATOR is sufficient to regulate the Bowels, Liver, and Pancreas, to a healthy discharge of their functions.

Two will insure a pleasant discharge from the bowels at a regular period of time every day.

Four to six will purge thoroughly all corrupt and acrimonious humors from the alimentary canal.

#### IMPORTANT TO PILL TAKERS.

Every one who is in the habit of taking pills will find Radway's Regulators the most pleasant, safe, and effectual regulator of the Bowels, Liver, Pancreas, and the most CERTAIN PURIFIER OF THE BLOOD in use.

One of Radway's Regulators is superior, in point of medical strength and efficacy, to six of the most popular and best approved cathartic pills.

#### RADWAY'S REGULATORS.

Radway's Regulators are most carefully prepared from extracts and gums of trees, plants, roots and herbs. There are no pills in use that will act upon the Liver, Pancreas, Bowels, the Salivary Glands and Nerves, so pleasantly and so effectually as the R. R. Regulators. No pills can be taken for any length of time with the same safety to the constitution; for, instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowel and impart strength to every nerve and tissue of the body.

#### REGULATORS VERSUS PILLS.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills?

We answer that pills, as they are ordinarily prepared and sold by different manufacturers, are generally of two kinds—those which operate on the bowels merely, called purgative pills, and those which excite the secretion of the liver, and are called mercurial or liver pills. Radway's Regulators resemble pills merely in shape, but differ in every other characteristic.

They act not only on the bowels, but on the liver, skin, pancreas, and kidneys, regulating each organ to an healthy action. They are not drastic, and never give pain as most purgative pills do; they stimulate the liver without endangering the patient with salivation, as mercurial pills do; containing no minerals in their composition, they are harmless when used for a length of time. They are tasteless, being enveloped in an elegant coating of gum. 1 to 3 regulates, 3 to 6 purge—good at all times.

#### AS A FAMILY PHYSIC.

RADWAY'S REGULATORS are the most innocent, safe, mild, and pleasant pills in use. They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint, Kidney Complaint, Jaundice, Head Aches, Nervousness, Melancholy, Disease of the Bladder.

#### FEMALE DIFFICULTIES.

Leucorrhœa, Fleur Albus, Whites, and Irregularities of all kinds.

#### BILIUS DISEASES.

Bile on the stomach. Bilious Colic, Enlargement of the Spleen, and all Chronic Affections of the Liver and Kidneys.

R. R. R. REMEDIES are sold by Druggists everywhere.

## Let Me Do You a Favor

By recommending MAC LAURIN'S SELF-INSTRUCTION *Currente Calamo* (Rapid Pen) SYSTEM OF PENMANSHIP. The only system in the world that can be learned without a master, and that combines *business rapidity* with elegance of form.

**MAC LAURIN'S SYSTEM OF MANUAL GYMNASTIC EXERCISES,** In six numbers, accompanied by a Book of Instruction, together with twelve of the Mac Laurin Pens and a holder, put up in one package, and sent to any part of the United States, by mail, with the postage paid, at one dollar.

The larger Course is the same as the preceding, augmented by the series of

**Second and Fine-Hand Copy Books, and two Blank Exercise Ruled Books, for additional Practice,** making fourteen books in all, with Pens and Instruction Book, at two dollars.

Remember that the positive qualities of this great improvement are:

1. That it enables the learner to acquire the art of writing a first-rate business hand *entirely without the aid of a teacher*—a thing never before attempted, and which could not have succeeded under any of the old systems.

2. That it means what it says, when it says a BUSINESS OR PRACTICAL HANDWRITING,—that is, a handwriting combining ELEGANCE and RAPIDITY.

Order by mail, of CHARLES B. NORTON, New York.

The same system for Schools, 12 Books, \$1,50.

**MAC LAURIN PEN, \$1.25 per gross.**

**WEEKS & RIDEOUT'S non-corrosive Indelible Writing Ink,** (one steel pen may be used for months). In bottles of all sizes and usual prices.

# GODEY'S LADY'S BOOK For 1855.

Twenty-fifth year of Publication by the same Publisher.  
The only Lady's Book acknowledged by the ladies of this country as worthy of its name.

## Principle Points of Attraction for 1855.

It contains 100 pages of reading in every month's number—not beginning with a large number of pages in January, and decreasing throughout the year.

**BEAUTIFUL STEEL PLATES,**  
LINE OR MEZZOTINT in every Number.

**GODEY'S RELIABLE STEEL FASHION PLATES**  
(colored) in every No.—the only Fashion Plates that are considered as authority.

**Knitting, Netting, and Embroidering, Printed in Colors.**  
MUSIC—Two pages monthly.

**EASY LESSONS IN DRAWING**  
Are given monthly.

**Godey's Invaluable Receipts**, worth alone THREE Dollars a year—for Cooking, the Toilet, Sick Room, Nursery, and Miscellaneous House-keeping Receipts.

**DIAGRAMS AND PLANS,**  
With full directions for Ladies to cut their own dresses.

**PATTERNS FOR CHILDREN'S DRESSES,**  
Both Male and Female.

**EMBROIDERY AND BRODERIE ANGLAISE PATTERNS.**  
Every month—a great variety.

**The Nursery.**—This Department is invaluable to every Mother.

## MODEL COTTAGES.

Great attention paid to this department.

## A Treatise on the Hair.

A most excellent article for the preservation and beautifying of this most valuable ornament to both sexes.

Undoubted Receipts, Model Cottages, Model Cottage Furniture, Patterns for Window Curtains, Music, Crochet Work, Knitting, Netting, Patchwork, Crochet Flower Work, Hair Braiding, Ribbon Work, Chenille Work, Lace Collar Work, Children's and Infant's Clothes, Caps, Chemisettes, Bonnets, Cloaks, Evening Dresses, Fancy Articles, Head Dresses, Hair Dressing, Bridal Dresses, Mantillas, Riding Habits, Morning and Evening Dresses, Cloaks, Talmas, Robes du Chambre, Capes and Cloaks of Fur in season—in fine, everything that can interest a Lady, will find its appropriate place in her own Book.

Remember that the Lady's Book has always given Steel Engravings, and throughout the year, not publishing them in January and February numbers, and then omitting them. In the Lady's Book alone you receive what no other three Magazines can furnish you with.

## Everyday Actualities.

This is another series of articles peculiar to this Magazine. Every one of these articles is illustrated with at least eight or ten of the finest wood engravings. This department is very interesting, conveying information in an agreeable form, suitable for ladies and gentlemen, that cannot be obtained elsewhere.

The expense of one number of the Lady's Book, including steel engravings and literary matter, paid for, not taken from English Magazines, far exceeds that of any other Magazine published in this country. We make no exception, and are willing to have the fact tested.

Head Office—No. 24 Hollis Street, Halifax, N. S.

THE COLONIAL LIFE ASSURANCE COMPANY has been established for the purpose of extending to the Colonies of Great Britain, the full benefit of Life Assurance; and for the purpose of giving increased facilities to persons visiting or residing in foreign countries. The company is registered and empowered under the Act of Parliament, 7 and 8 Vict., cap. 110.

The General Regulations and Conditions have been formed upon principles of fairness and liberality, so as to encourage Assurance among all classes of the community. The rates in Nova Scotia are the same as in Great Britain, and formed on the most correct observations which exist as to the value of life.

The Assured have permission to pass and repass from this Province to any European Port, *at all seasons of the year*, and within any port of North America to the Northward of 38 degrees of North latitude, but not to the Westward of the Mississippi River, and they may reside in any part within the above limits, without **EXTRA CHARGE**.

Persons accepting Life Assurance Policies as a security for money advanced, generally run the risk of the party going beyond the limits of his Policy, and incurring a forfeiture. The COLONIAL COMPANY are ready to grant Policies covering the risk of a party proceeding to any part of the world at rates of Premium corresponding to the circumstances of each case.

No expense is incurred in effecting Assurances.

The Board in Halifax is invested with absolute powers in the disposal of business.

**DIRECTORS**—The Hon. M. B. Almon, *Banker*; the Hon. Wm. A. Black, *Banker*; Lewis Bliss, Esq., Chas. Twining, Esq., *Barrister*; John Bayley Bland, Esq., the Hon. Alex. Keith, *Merchant*.

*Agent*, MATTHEW H. RICHEY.

**"STAR LIFE ASSURANCE SOCIETY,"****-OF-****LONDON.**

(FOUNDED 1843.)

**C A P I T A L £100,000 S T E R L I N G.****N O T I C E.**

The privilege offered to Assurers in the STAR LIFE OFFICE, are highly advantageous. *Ninety per cent.* or nine-tenths of the profits (ascertained every fifth year,) are allotted to the holders of Policies; which may be applied in the reduction of the future annual premium, or be added to the sum insured, as a bonus.

Thirty days are allowed for the payment of the premium from the date of its becoming due.

All claims are paid within fifty days of their being allowed by the Board, and disputed claims referred to arbitration.

The dividend declared in 1848 was 62 per cent. on the premium paid, the largest bonus ever given by any Company having agencies in this Country.

This Society is chiefly but not exclusively devoted to the Assurance of the lives of members of the Wesleyan Methodist Societies, and of the hearers and friends of that connection. Assurances however, have been, and may be effected upon all assurable lives. Nothing need be said upon the propriety of persons assuring their lives for the benefit of their families or friends, when so many proofs are furnished by the experience of every day life. The advantages of a Respectable Company, with a large Capital and dividing handsome profits, are too obvious to need any comment.

All necessary Blanks and Pamphlets and every information furnished gratis, by the Society's Agent or Medical Examiner.

## MAYNARD & NOYES'S BLACK WRITING INK.

The manufacture of this Ink was established in 1816, and the quality has now been tested by the public for *thirty-nine years*. During this time it has been constantly increasing in public favor and patronage, and is now the leading article in the country. Those who may be ignorant of its superiority and reputation are invited to read the following testimonials, and to make trial of it themselves. When the best judges, after using it twenty and more years, express themselves in one manner concerning its superior excellence, it is quite evident that no one need be troubled with *bad ink*.

*Office of Merchants' Ins. Co., Boston, Nov. 18, 1849.*

MESSRS. MAYNARD & NOYES,

I have used your Writing Ink for the last sixteen years. In 1840, I gave you a certificate of its excellence, and having continued its use ever since, to my entire satisfaction my opinion is confirmed in its superiority. *It flows freely from the pen, and is in all respects the best Ink I have ever used.* The other officers in the institution agree with me in the opinion here expressed.

GEORGE HOMER, *Sec.*

*Boston, Jan. 10, 1848.*

MESSRS. MAYNARD & NOYES,

Gentlemen: It is now, I believe, more than twenty years since the School Committee passed an order for using your Black Writing Ink in the City Schools. I have used it during that period, and deem it a *first rate article*, and cheerfully recommend it to others. *It flows freely from the pen, and increases in blackness after being committed to paper, and the color is durable.* I know of no ink equal to yours, and I have tried many kinds, both English and American.

P. MACKINTOSH, Jr., *Prin. of Writ. Dep., Hancock School.*

*Boston, Oct. 15, 1849.*

MESSRS. MAYNARD & NOYES,

Gentlemen: Your note of the 10th inst., asking us to state the length of time we had used your Writing Ink, and our opinion of its quality, was duly received. We have made use of it generally for the last twenty years, and have found it always of satisfactory quality, being free from those objectionable points so troublesome and common in writing liquids generally. Wishing for it a still more extended sale, we are, Your ob't serv'ts,

J. M. BEEBE & CO.

### COPYING INK.

This Ink gives a copy as distinct and perfect as the original, and combines all the properties of our Writing Ink. This quality particularly adapts it to Counting House use, as it answers all the purposes for which a writing liquid is wanted. Also,

### BLUE, RED, AND CARMINE INKS.

These Inks for beauty and brilliancy of color are unequalled.
